

BIONETIX® INTERNATIONAL PRIVATE LABEL SOLUTIONS

ISO: 9001 Certified
Quality System Registered

Bionetix
INTERNATIONAL
A Subsidiary of Cortec® Corporation

ENVIRONMENTALLY FRIENDLY PRIVATE LABEL OPTIONS

The market for environmentally friendly private label bioremediation products is growing!

Industries and individuals are looking for safer, more natural ways to clean up waste, boost agriculture, control odor, manage septic systems and drains, and reduce negative industrial discharge.

The possibilities are numerous:

- *Powerful biological laundry detergents*
- *Industrial cleaners*
- *Natural odor controls*
- *Livestock immune boosters*
- *BOD reducers*
- *And much, much more!*

Whatever the target industry or home sphere, Bionetix® puts nature to work for you and your customers. In fact, many global companies with name recognition already rely on Bionetix® for environmentally friendly private label solutions.

NATURAL CLEANING SOLUTIONS FROM BIONETIX® INTERNATIONAL

Bionetix® International produces biological waste treatment and cleaning products that are used in thousands of field applications worldwide.

Since 1996, Bionetix® International has supplied natural biological products to the petroleum, food and agriculture, and hazardous waste industries to degrade target substances in waste systems.

Bionetix® relies on bacterial supplementation through the application of biochemical cleansing products to effect the bioaugmentation and bioremediation of waste systems. Our products are used in countless applications globally.

HARNESSING THE POWER OF NATURE

Bionetix® biological digestants are composed of 100% naturally occurring, non-pathogenic microorganisms that have been specifically selected for their abilities to degrade target substances.

Bionetix® formulations contain specific, all-natural microorganisms to break down organic pollutants – without the use of chemicals and further damage to the environment. Bionetix® bacteria are safe.

None of the organisms found in our products are genetically engineered or pathogenic for animals, plants, or humans.

CUSTOM SOLUTIONS

Bionetix® offers tailor-made solutions for your private labeling needs. Multiple mix and match options are available to make sure you get just the right product for your budget plan and for the needs of your target retail or industrial customers.

The Process:

Bionetix® can also supply specialized free enzymes for products if needed, along with the expert understanding of how to stabilize them.

Product Types

- Cleaning
- Septic Maintenance
- Drain & Grease Trap Maintenance
- Odor Control
- Agriculture Enhancement
- Waste Treatment

Delivery Systems

- Liquid
- Powder
- Tablets
- Blocks
- Aerosols
- Slow releasing blocks

Bacteria Strains

- *Bacillus subtilis*
- *Bacillus licheniformis*
- *Bacillus megaterium*
- *Bacillus amyloliquefaciens*
- *Bacillus pumilus*
- *Bacillus polymixa*
- *Bacillus circulans*
- *Pseudomonas putida*
- *Pseudomonas fluorescens*
- *Arthrobacter globiformis*
- *Trichoderma reesei*
- *Lactic acid bacteria such as Lactobacillus acidophilus*
- *Saccharomyces cerevisiae*
- *Enterococcus faecium*
- *And others...*

Bacteria Counts

- For liquids: Up to 50 billion CFU/g
- For powders: Up to 100 billion CFU/g
- For tablets: Up to 20 billion CFU/g
- For blocks: Up to 5 billion CFU/g
- For aerosols: Up to 1 billion CFU/g

WHAT BIONETIX® CUSTOMERS SAY...

BIONETIX® promotes effective operation of our new sewer effluent treatment system, the disposal of excreta of a dairy, food residual substance decomposition. All these decomposition methods are the result of self-purification by microbes and natural enzymes.
