

HYGIEA2200™

Enhanced Microbial Hygiene & Odor Control Concentrate

HYGIEA2200™ is a pre-stabilized multiple spore blend concentrate manufactured specifically for large volume accounts with formulation capabilities. HYGIEA2200™ contains synergistic bio-strains, surfactants, nutrients, stimulants, and odor-neutralizing agents that support effective breakdown of starches, carbohydrates, proteins, fats, and greases while contributing to long-lasting freshness and odor management in porous and odor-retentive environments. It not only neutralizes but also destroys these odor-causing compounds. HYGIEA2200™ is a fully formulated, low-cost bio-blend designed for versatile hygiene and environmental maintenance applications.

Features & Benefits

- Neutralizes and eliminates odors long term (does not just mask them)
- Provides long-term residual cleaning and odor control
- Breaks down starches, carbohydrates, proteins, FOG (fats, oils, and greases), and other organic waste
- Cost-effective for large-volume hygiene formulations

Specifications

Color & Appearance	Green liquid
pH	7.0–9.0
Bacteria Count	1×10^9 CFU/mL
Bacteria Stability	Max. loss of 1 log/yr
Shelf Life	2 years

Storage

Store in a cool, dry location. Do not freeze. Keep containers tightly closed, protected from moisture and direct sunlight. Please follow the recommendations and use the product before the best before date. Mix well before use. Contact Bionetix® with questions. Avoid inhalation, eye contact, and prolonged skin contact. Wash hands thoroughly after handling.

Typical Applications

- Biological odor-control and hygiene products
- Carpet, upholstery, and porous surface cleaning formulations
- Restrooms, locker rooms, and public hygiene areas
- Waste containers and odor-prone environments
- Textile and fabric care formulations
- Pet-care and animal hygiene environments
- Soft-surface deodorization and maintenance programs
- Garbage rooms and waste handling areas
- Odor-retentive surfaces and environments
- Institutional and commercial housekeeping programs

Directions for Use

Shake well before use. Mix for a minimum of 20 minutes prior to batch formulation. Dilute with water, typically between 1:10 and 1:20, depending on the application and organic load. Allow adequate contact time for optimal performance. Contact Bionetix® for formulation and application guidance.
