

HYGIEA2600™

Bacterial and Enzyme Organic Waste & Stain Degradator

HYGIEA2600™ is a pre-stabilized liquid bacterial and enzyme concentrate designed for advanced cleaning, organic waste degradation, and stain-removal applications. It contains multiple bacterial strains along with amylase, cellulase, lipase, and protease enzymes to effectively degrade grease, fats, oils, starches, proteins, cellulose, and other organic residues. HYGIEA2600™ provides residual cleaning benefits downstream, making it suitable for institutional hygiene, marine cleaning, environmental hygiene, organic waste management, and advanced multipurpose cleaning formulations.

Features & Benefits

- Combines multiple bacterial strains with enzymes for accelerated organic waste breakdown
- Effectively degrades fats, oils, greases, starches, proteins, cellulose, and stain-causing residues
- Enhances stain removal and deep cleaning performance
- Provides residual biological cleaning activity downstream
- Performs effectively in high organic load conditions
- Supports advanced hygiene and multipurpose cleaning formulations

Specifications

Color & Appearance	Light yellow liquid
pH	7.0–9.0
Bacteria Count	1×10^9 CFU/mL
Bacteria Stability	Max. loss of 1 log/yr
Shelf Life	2 years

Storage

Store in a cool, dry location. Do not freeze. Keep containers tightly closed, protected from moisture and direct sunlight. Please follow the recommendations and use the product before the best before date. Mix well before use. Contact Bionetix® with questions. Avoid inhalation, eye contact, and prolonged skin contact. Wash hands thoroughly after handling.

Typical Applications

- Restrooms and public hygiene facilities
- Cafeterias, restaurants, and food-service cleaning systems
- Commercial kitchens and organic residue cleaning applications
- Marine and boat cleaning applications
- Institutional floor and surface cleaning systems
- Organic waste and stain-removal cleaning systems
- Drain, floor, and surface organic residue management applications
- Commercial and institutional hygiene formulations
- Deep-cleaning and stain-removal maintenance programs
- High organic load cleaning environments

Directions for Use

Shake well before use. Mix for a minimum of 20 minutes prior to batch formulation. Dilute with water, typically between 1:10 and 1:20, depending on the application and organic load. Allow adequate contact time for optimal performance. Contact Bionetix® for formulation and application guidance.
