

ABC 9000™

Dry Odor-Control Microbial Platform

ABC 9000™ is a water-soluble microbial powder concentrate developed for odor-control and sanitation formulations in pet care and related consumer applications. The technology combines proprietary odor-neutralizing agents for immediate odor reduction with a stable *Bacillus* spore blend that biologically degrades odor-causing organic residues over time.

This dual-action approach delivers both instant odor management and long-term control at the source. ABC 9000™ is designed as a formulation platform for manufacturers developing cat litter additives, pet deodorizers, carpet care products, absorbent powders, and specialty odor-control products. Its water-soluble format allows easy incorporation into dry formulations while providing sustained biological performance after application.

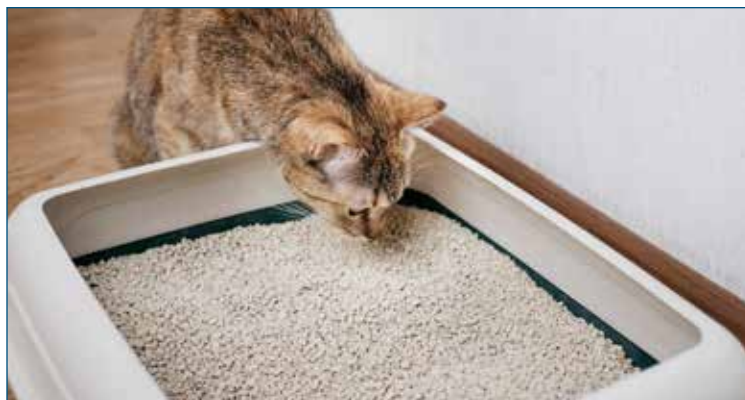

As the odor-control specialist within the ABC family, ABC 9000™ focuses on applications where effective odor management, sanitation support, and long-lasting freshness are critical.

Features & Benefits

- Combines chemical and biological odor-control technologies
- Neutralizes odors immediately upon application
- Biologically degrades odor-causing organic residues
- Provides long-term odor control at the source
- Water-soluble powder for easy formulation
- Stable spore technology for extended shelf life
- Suitable for pet care and dry deodorizing products

Specifications

Color & Appearance	White powder
pH	8.0–9.0
Bacteria Count	1×10^9 CFU/g
Shelf Life	2 years

Storage

Store in a cool, dry location. Keep containers tightly closed, before and after opening, to prevent moisture absorption and exposure to direct sunlight. Please follow the recommendations and use the product before the best before date. Contact Bionetix® with questions. Avoid inhalation, eye contact, and prolonged skin contact. Wash hands thoroughly after handling.

Typical Applications

- Cat litter additives
- Pet-care deodorizing products
- Pet bedding treatments
- Carpet deodorizing powders
- Pet stain and odor formulations
- Powder deodorizers
- Absorbent odor-control products
- Household odor-control formulations
- Specialty sanitation powders

Directions for Use

Blend thoroughly into dry formulations before packaging. ABC 9000™ may be incorporated into pet-care, deodorizing, sanitation, absorbent, and odor-control products. Recommended inclusion rates depend on formulation objectives and desired odor-control performance. Contact Bionetix® for formulation guidance and dosage recommendations.
